Work experience

Best computers | Dehradun,
Uttarakhand WordPress Developer | 07/2023 - 12/2023
- As a dedicated WordPress developer at Best Computers, I played a pivotal role in crafting dynamic and visually appealing websites.
- Leveraging my proficiency in WordPress, I contributed to the creation of user-centric and responsive web solutions.
- My responsibilities included custom theme development, plugin customization, and ensuring seamless website functionality.
- This experience enhanced my skills in problem-solving, attention to detail, and adherence to project timelines, contributing to the overall success of Best Computers in the digital landscape.

Projects

goFood(using react,express and mongoDb)
https://github.com/rah9560/goFood
A food-selling e-commerce website with login and signup functionalities connected with a backend server using express and also with the mongo atlas database
